#### **TASTING NOTE**

A gentle white from beside Italy's Garda lake, this is perfumed with spice and ripe lemons that simply intensifies in the mouth; the texture is lovely, too.

## **VITICULTURE**

San Benedetto di Lugana, the grapes come from our own vineyards that are most suitable due to the high content of white clay. The harvest and selection of the grapes are done strictly by hand, in small 17 kg. cases. Double bow Guyot, yield around 8,000 kg. of grapes per hectare, equivalent to 5,040 litres of wine or 63%. Harvest late in October.

### **FOOD MATCHING**

Stimulating with marine or freshwater fish, it also goes well with savoury or fatty meat (goose or pork). Interesting with seasoned and blue cheeses of various kinds and with elaborate first courses.
