SUITABLE FOR	Vegans, Vegetarians
CLOSURE	Agglomerate Cork
TOTAL ACIDITY	5.3g/l Tartaric
RESIDUAL SUGAR	0.5g/l
SKU	E0846124

VINEYARD

Vineyards located 5km from the Mediterranean sea. This has a massive effect on the climate of the area: it does not freeze in winter, and in the hot season the temperature hardly rises above 31°C as the Mediterranean breeze blows to cool down the climate. Very stable temperature along all the year long. Very poor soils with the mother stone at only 1 mt depth. Clay and sandy. Small plots belonging to different neighbours that have different Mediterranean crops: a lot of biodiversity

VINIFICATION

Traditional vinification using yeast from the vineyards (we start the fermentation of a selected plot and we use it to start the fermentation of the rest of the wines). Low addition of SO₂. We use the latest techniques to have a better performance of traditional techniques.
