Unique Selling Point:

There are numerous stages involved in the production of Belenkaya Lux, all are carefully monitored to achieve the very best quality. The process begins with the finest quality wheat and soft, crystal clear water drawn from a 200m deep artesian well. Belenkaya is triple distilled then passed through a special 13 metre column charcoal filter to remove any impurities, then polished by filtration through quartz sand. The natural infusion of oat flakes during the finishing process adds a unique and luxurious soft texture to the spirit. A Russian wheat vodka from Arkhangelsk with a delicate aroma, smooth texture & soft, deep taste.
